Build Variants

```
buildTypes {  
    release {  
        // ...  
        buildConfigField("String", "WEB_SERVER", "\"http://www.coolapp.com/\"")  
        resValue("string", "debug_button", "Release Button")  
    }  
    staging {  
        buildConfigField("String", "WEB_SERVER", "\"http://staging.coolapp.com/\"")  
        resValue("string", "debug_button", "Staging Button")  
    }  
    dev {  
        buildConfigField("String", "WEB_SERVER", "\"http://dev.coolapp.com/\"")  
        resValue("string", "debug_button", "Dev Button")  
    }  
}
```
